FOR THE IMPERIUM OF MAN!. \u00a33 for the collectors edition isnt bad at all for what you get. I really like this IDE so far. I'm pretty new to Python and was previously just using sublime text and notepad++. I was looking for an IDE and checked out the major ones, including pycharm. Pycharm also seems to be a great package, but Wing does everything I need, has a very intuitive layout, and--best of all--is on Steam. That means I can pay once and download and install it on all of my machines. I love multi-platform, multi-install, single-user licenses. This is the future. I recently decided to install zbrush (which I have licensed and installed in Windows) on my Mac partition, and they wanted me to buy a whole separate mac license. I was reminded that Steam and the Apple app store have totally spoiled me when it comes to my expectations around software licensing. Bring on the easy installs and easy updates. Kudos to Wing for releasing on Steam, and let's hope other dev tools follow suit!. The weakest title by CoG I've played so far. Generally subpar I'd say, choices don't seem to as much and the writing is nothing to... write home about. It has an interesting premise but lacks in it's execution. Sad since it it sthe type of writing we don't see much of anymore.. This game is a really cool concept that works very well for VR and has serious potential. The controls need a lot of work, on Oculus atleast. For one, in order to move through the thumbstick menu's you have to click the stick in, which doesnt work very well. Then, If your thumb leaves the stick the slightest bit the whole menu disapeears. Its just a hassle to navigate through the menu and could be done much better, with say a secondary button click and menu that stays up till you close it. The controls push me away but the look and feel makeme want to keep playing. Ill update if I play more but Ill cautiously recomend for now.. My friend bought me this game soley because im white and he calls me an albino well the jokes on him cause this games \*\*\*\* ing amazing!. A confession: yes, I knew full well what I was buying when I forked out my 49c for this (on sale, 'natch). A reviewer's gotta review: I review, therefore I am.

Did I honestly expect that I'd give this product a thumb-up? Of course I didn't. In fact, I would've been gob-smacked if I was in the present process of coughing up a POSITIVE review. (That said, I didn't expect it to be THIS bad...)

Look at the title, for frig's sake: MAR WAR. First bad sign. Now look at the screenshots. Yep: another GameGuru game. Now look at the pric...HOLY SHAMOLIE! They actually have the gall to ask FIVE BUCKAROONIES for this steaming load of b\*llocks, in the CURRENT YEAR no less! Well, colour me putrid and call me Gertrude. That's really quite silly, that is.

TL;DR: it's utter BALLS. Possibly the WORST GameGuru game I've ever played, and trust me, that's truly saying something. Medals for bravery need to be promptly issued to anyone with the mettle to get past the first five minutes of "gameplay".

Verdict: 0.1V10.

Puzzle Bots is a 2D puzzle game that is filled to the brim with character goofiness and charm. If there is anything this game did right, it is proper humor for the casual audience it is intended for. The story is pretty well written for a short game, and the voice acting is spot on. The one thing I did not like in Puzzle bots was the non-existence of hints of any kind. Some of these puzzles were super elaborate, so in some cases it will be a guess and check ordeal too see if the you are solving the puzzles correctly. Overall it was very difficult to find any fault with this game, other than the fact it probably won\u2019t appeal to the \u201chardcore\u201d audience.. 2.5-4 hours to finish; fun minimalistic puzzle game but it can be a little tiring. If you've liked any of the other four you'll like this one as well, but don't expect it to be as good as the others. It's still a really great game though! Just not the best one, that's all., \u041d\u0430 \u0432\u0442\u043e\u0440\u043e\u0443  $\u0447\u0435\u043c\u0442\u043e\u0446\u0435\u043f\u043b\u044f\u0435\u0442.$  $\u043d\u0435\u043f\u043b\u043b\u0445\u0445\u0430\u044f\u043c\u0448\u043d\u043a\u0438$  $\u043c\u0441\u0442\u044b\u0432\u0441\u0451\u043e\u0447\u0435\u043d\u044c$ \u0443\u0433 \u043a\u0435\u043a

since update cant see other hand {useing oculus} before it worked just fine but other than that a great game for us gun people amazing graphics,good playability really a good game from Senran Kagura Series. Played it for not 5 minutes and could tell this game was a trainwreck. Gameplay was too simple, graphics were meh at best, game was overall too simple and seemed to just be a cash grab. An interesting story, but it takes several very similar runs to really get the whole picture. Figuring out how to reveal the whole story is also unclear, forcing frustrating retries. Better direction, some polish on the art, and better voice acting could pull this game together into a good experience. While a good game and fun to boot it has failed to learn the lessons of more recent point and click adventures known as basic controller support for movement of the character and interacting with objects. If you plan on watching a good story while sticking through with mildly choppy mouse movement in a 3d puzzlebased game you wont be disappointed as it is good but I'm not certain most gamers would go through the effort. I was screwing around on the store until I came upon this gem it was not out yet but boi am I happy the wait is over. This game is something that kinda gives you that binding of Isaac feeling to it how it is creepy and disturbing in some ways but unlike the binding of Isaac you can't just start and expect it to be simple and easy to beat for this games boss's you must plan to beat them and that is something you don't see in alot of games. in this game the bosses are not just the same with some other skin and other attacks added to it each boss has its own pattern and if you don't learn that pattern, have a fun time beating this game. Anyway I think this game was worth the wait and my money I rate it a 9\\10
